Looking Forward into a New Year...

Visitors to the library this past fall will have noticed that some of our collections have been on the move as we've worked to improve our spaces on the First Floor and Lower Level. This work will continue this winter with improvements to a number of collections and services. Some of the things you can look forward to as we roll out these changes this winter and spring:

- An all-new area for our recent arrivals, hot picks, and some of your favorite collections
- Attractive seating options in our updated spaces
- A new browsing experience for our physical media collections
- Easier access to pick up your holds
- Updates to our Circulation area and improved signage and display fixtures

As we await new shelving and begin preparing our spaces, you may notice open ranges of shelving or familiar collections that are in new spaces. We know that this may bring up questions. If you can't find an item you're looking for or have questions about changes we're bringing in, please visit our Adult Services desk and we're happy to help!
