## No-Sew Zombie Felties

Raise some cute and/or creepy zombie felties from the dead with this Halloween kit. Adapted from felting embroidery book *Zombie Felties*.

## Ingredients (Included):

- Felt pieces: gray, tan, pink, red, black, white
- Tacky glue + craft stick
- Black permanent marker
- Black thread
- Printed coffin pattern
- Printed cat and dog patterns

## You Supply:

- Scissors
- Ruler
- Tape

## Directions:

Cut out cat and dog patterns and trace shapes onto felt using the sharpie. The patterns will say what color to use. Use a light sketching motion so as not to pull the felt too much. Then carefully cut out the shapes, keeping inside the black line.

Gray = zombie dog/body  
Tan = zombie cat/body  
Red = dog eyes, cat muzzle  
Black = dog nose  
White = dog teeth, dog bone (not pictured)  
Pink = dog gums, cat nose and collar

## TO MAKE THE ZOMBIE PUPPY:

Glue the teeth to the back of the head front piece. Flip over to adjust the placement before the glue dries.

Optional: Cut a very small piece of pink felt for the gums, add some glue, and slide under the head on top of the teeth that is showing.

Glue on the eyes and the nose to the front of the front head piece.

Glue the two ears in position on the back of the zombie puppy's head, then align the two felt head pieces and glue them together.

Align the two body pieces and glue them together, then glue them to the back of the Zombie Puppy's head.

Your Zombie Puppy is complete! Wait for it to dry a few hours.

To give your Zombie Puppy a bone, align the two pieces and glue them together. You can glue some red felt to the rounded edge for blood if you like. (Not pictured.)

## TO MAKE THE ZOMBIE KITTY:

Glue the red muzzle in place on one of the head pieces. Then cut a tiny triangle from a corner of the pink felt and glue it where the cat's nose should be.

Using the permanent marker, draw a cat's mouth and some stitched-up eyes. (Make sure the glue is dry first!) Sketch lightly so as not to pull the felt, and go over it a few times until it's dark enough.

Align the two tail pieces and glue together. Then cut a few small pieces of red felt for the front and back of the tail, to match the muzzle.

Cut the black thread into whiskers and tape them to the front of the second cat head. (In this case, tape was a lot easier to use than glue to keep the whiskers in position.) Then, glue the tail to the inside top of the same head piece.

Align the two heads so the whiskers and tail are inside and glue them together. Then, glue the pink collar onto one of the body pieces, then glue the two body pieces together

Finally, glue the body to the back of the Zombie Kitty's head.

Your Zombie Kitty is complete!  
Wait a few hours for it to dry.

#### TO MAKE THE COFFIN:

Cut out the coffin template.  
One piece is the body of the coffin, and one piece is the lid.  
(The lid says R.I.P.)

Cut slits to create flaps in the corners and then fold along the gray lines. Glue the flaps together to create a coffin-shaped lid.

Repeat the same process with the coffin base.

Place your Zombie Puppy and Zombie Kitty inside for when they're ready to rise from the dead!

The Coffin template was free from: <https://partywithunicorns.com/free-halloween-coffin-favor-boxes-template/>
