INDEPENDENT AUDITOR'S REPORT

Members of the Board of Trustees Wilmette Public Library District Wilmette, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Wilmette Public Library District (the District) as of and for the year ended June 30, 2019, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting for government-wide financial statements and cash basis of accounting for the governmental fund financial statements, as described in Note 1d; this includes determining that the modified cash basis and cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, and the cash basis financial position of each major fund, and the aggregate remaining fund information of the Wilmette Public Library District, as of June 30, 2019, and the respective changes in modified cash/cash basis financial position for the year then ended in accordance with modified cash basis/cash basis of accounting described in Note 1d.

Basis of Accounting

We draw attention to Note 1d of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis and cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The management discussion and analysis and combining and individual fund financial statements and schedules and supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The management discussion and analysis and supplementary information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District as of and for the year ended June 30, 2018 (not presented herein) and have issued our report thereon dated November 14, 2018. which contained unmodified opinions on the respective modified cash basis financial position of the governmental activities, and the cash basis financial position of each major fund, and the aggregate remaining fund information. The comparative data for the year ended June 30, 2018 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2018 financial statements. The individual fund financial statements have been subjected to the auditing procedures applied in the audit of the 2018 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2018.

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Wilmette Public Library District Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

The discussion and analysis of the Wilmette Public Library District provides a general review of the financial activities for the year ended June 30, 2019. The information presented should be considered in conjunction with the financial statements as a whole.

Required Financial Statements

The basic financial statements are prepared using the modified-cash basis of accounting which more closely conforms to our monthly reports. These consist of three components:

- Government-wide financial statements;
- Fund financial statements:
- Notes to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide a synopsis of the District's finances.

The Statement of Net Positions presents information on all of the District's assets and liabilities arising from cash transactions adjusted for long term capital assets and depreciation expenses, with the difference reported as net positions. Over time, increases or decreases in net positions may serve as an indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net positions changed during the reported fiscal year.

Fund financial statements

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements show amounts expended to provide Library services. Funds remaining are also shown. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's two major funds and the total of all other funds.

Notes to the basic financial statements

Notes to the financial statements provide additional information that is essential for a full understanding of the data in the basic financial statements. Required supplementary information consists of the Schedule of Revenues Collected, Expenditures Paid and Changes in Fund Balance - Appropriation and Actual of the General Fund and the Special Reserve Funds and more detailed data concerning the District's contributions and funding progress of the Illinois Municipal Retirement Fund.

Government-Wide Financial Analysis

	2019	2018
Revenues Collected:		
Charges for Services	\$247,519	\$252,302
Operating Grants	\$61,302	\$21,031
Property and Replacement Taxes	\$5,760,162	\$6,028,488
Investment Income	\$276,955	\$151,887
Donations	\$5,294	\$64,357
Miscellaneous	\$35,695	\$39,193
Total Revenues	\$6,368,927	\$6,557,258
Expenses Paid:		
Culture and Recreation	\$6,330,667	\$5,859,515
Total Expenses	\$6,330,667	\$5,859,515
Increase (decrease) in Net Positions	\$56,260	\$697,743

Financial Analysis

Revenues decreased slightly and Expenses increased by 8.0% in governmental activities during the fiscal year ending June 30, 2019 resulting in a increase in net positions of \$56,260.

The Wilmette Public Library District's assets exceeded liabilities by \$23,760,343 for the year ended June 30, 2019 and \$23,704,083 for the year ended June 30, 2018.

A large portion (33.0%) of the District's net positions reflects its investment in capital assets used in governmental activities. These assets cannot be liquidated for use in operations and therefore are unavailable.

A portion of the net positions is restricted for special projects. The District maintains sufficient unrestricted net positions to provide for normal Library operations in the near future. In addition, funds are available for expenses associated with periodic activities such as computer network upgrades and landscape and parking lots improvements.

General Fund Appropriation and Actual Comparison

The original appropriation was not amended during the year.

	2019	2018		
	Appropriation	Appropriation Actual		
Revenues				
Property and Replacement Taxes	\$5,040,351	\$5,316,123	\$5,577,916	
Grant Income	\$68,859	\$33,859	\$21,031	
Investment Income Kenilworth Library Services	\$90,000	\$163,475	\$91,284	
Contract	\$190,123	\$198,452	\$185,516	
Fines and Fees	\$62,050	\$49,067	\$66,786	
Friends Donations	\$28,800	\$27,443	\$43,939	
Miscellaneous	\$57,000	\$40,989	\$59,611	
Total Revenues	\$5,537,183	\$5,829,408	\$6,046,083	
Expenditures and Transfers				
Personnel Services	\$3,736,341	\$3,630,407	\$3,245,894	
Patron Materials/Services	\$1,108,000	\$1,087,384	\$1,033,506	
Operation	\$1,162,100	\$1,143,907	\$570,167	
Contingency	-	-	-	
Transfers	300,000	300,000	350,000	
Total Expenditures	\$6,306,441	\$6,161,698	\$5,199,567	
Excess (Deficiency) of Revenues				

Actual revenues in governmental activities exceeded budgeted revenues by \$292,225 primarily due to a slight increase in property and replacement taxes and in investment income. The District spent \$144,743 less than the appropriated amount due to savings in every category.

At the end of fiscal year 2019, the District's governmental funds reported a total balance of \$15,240,271 a decrease of \$28,094 over fiscal 2018.

Capital Assets

At the end of fiscal year 2019, Wilmette Public Library had total capital assets, net of depreciation, of \$8,340,072, invested in a large collection of library materials, computers and other electronics and the building which houses the Library operations.

Economic Factors on the District's Future

The Wilmette Public Library District is subject to the property tax caps in accordance with the state statutes. With the tax caps in place, the District is limited to the amount of increase they are able to obtain with the tax levy. In addition, the District is subject to tax rate objections and property tax assessment objections. These objections can erode the amount collected by the District with no recourse for collections. A potential decrease in the assessed valuation of property in the District may create a further decline in income.

Contact Information

This financial report is designed to provide the Wilmette Public Library District's citizens and taxpayers with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you need additional information, contact the District:

Anthony Auston, Director Wilmette Public Library District 1242 Wilmette Avenue Wilmette, IL 60091-2558

NOTES TO FINANCIAL STATEMENTS

June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Wilmette Public Library District (the District), have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)) except for the basis of accounting described in Note 1d. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and reporting principles. The more significant of the accounting policies are described below.

a. Reporting Entity

The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS) governed by an elected Board of Trustees. These financial statements present the District's reporting entity as required by GAAP. The District is considered to be a primary government since its board is separately elected and the District is fiscally independent. Based on the criteria of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, the District does not have any component units. The Friends of the Library, while a potential component unit, is not significant to the District and, therefore, has been excluded from its reporting entity.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following category: governmental.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of restricted, committed or assigned funds (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds) and management of funds held in trust that can be used for library services (permanent fund). The General Fund is used to account for all activities of the District not accounted for in some other fund. The District has no fiduciary funds.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those accounted for in another fund.

The Special Reserve Fund is used to account for resources restricted for capital improvements at the District.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and using the modified cash basis of accounting. The District reports capital assets and liabilities issued to acquire capital assets, not long-term operating liabilities. Revenues are recorded at the time of receipt by the District. Expenses are recorded when the funds are disbursed. Depreciation of capital assets has also been shown on the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the cash basis of accounting. Revenues are recorded at the time of receipt by the District. Expenditures are recorded when the funds are disbursed.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Cash and Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life in excess of one year except for library materials. The District capitalizes all of its library materials. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value or service capacity of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and building improvements	10-40
Furniture and equipment	3-20
Books and library materials	7

g. Fund Balance/Net Position

In the fund financial statements, governmental funds can report nonspendable fund balance for amounts that are either not spendable in form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Trustees, which is considered the District's highest level of decision-making authority. Formal actions include ordinances

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Fund Balance/Net Position (Continued)

approved by the Board of Trustees. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Director by the District Board of Trustees. Any residual General Fund fund balance is reported as unassigned. Any deficit fund balances in any other governmental funds are also reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net position has not been restricted by enabling legislation adopted by the District. Net investment in capital assets represents the book value of capital assets less any long-term debt principal outstanding issued to construct capital assets.

2. DEPOSITS AND INVESTMENTS

The District categorizes the fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The District maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the statement of net position as cash and investments.

The District's investment policy allows the District to make deposits/invest in accordance with ILCS, namely in interest-bearing savings accounts, interest-bearing certificates of deposit, interest-bearing time deposits or any other investment constituting direct obligations of any institution as defined by the Illinois Banking Act and is insured by the Federal Depository Insurance Corporation (FDIC) and The Illinois Funds.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than market value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio.

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. To guard against credit risk for deposits with financial institutions, the District's investment policy requires that deposits with financial institutions in excess of FDIC be collateralized with collateral held by an independent third party in the name of the District.

b. Investments

Concentration of credit risk is the risk that the District has too high a percentage of their investments invested in one type of investment. The District's investment policy does not require diversification of investment to avoid unreasonable risk.

In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds based on the time line for the funds use. Unless matched to a specific cash flow, the District will not directly invest in certificates of deposit with a maturity of greater than three years from the date of purchase.

As of June 30, 2019, the District had the following investments and maturities:

		Investment Maturities (in Years)							
Investment Type	Fair Value	Less Than 1	1-5	6-10	Greater that	an 10			
Negotiable certificates of deposit	\$ 5,778,000	\$ 2,325,000 \$	3,453,000 \$		- \$				
TOTAL	\$ 5,778,000	\$ 2,325,000 \$	3,453,000 \$		- \$				

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

The District has the following recurring fair value measurements as of June 30, 2019: negotiable certificates of deposit of \$5.78 million are valued using quoted matrix pricing models (Level 2 inputs).

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in certificates of deposit.

The investment policy does not include any limitations on how much of any type of security can be held in the portfolio.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's policy does not define procedures to reducing custodial credit risk.

3. CAPITAL ASSETS

Capital asset activity resulting from modified cash transactions for the year ended June 30, 2019 was as follows:

		Balances July 1	Increases		Increases		Increases		Increases D			Balances June 30

4. PROPERTY TAX CALENDAR

The following information gives significant dates on the property tax calendar of the government.

- The property tax lien date is January 1;
- The annual tax levy ordinance for 2018 was passed November 20, 2018;
- Property taxes are due to the County Collector in two installments, March 1 and September 1 or within 30 days of the County issuing the final property tax bills; and
- Property taxes for 2018 are normally received monthly beginning in March 2019 and generally ending by January 2020.

5. INDIVIDUAL FUND DISCLOSURES

During fiscal year 2019, the District made the following operating transfers:

Transferred To	Transferred From	Amount
Special Reserve Fund	General Fund	\$ 300,000
TOTAL		\$ 300,000

The interfund transaction between the General Fund and Special Reserve Fund was to fund current and future capital projects of the District.

6. RISK MANAGEMENT

The District is exposed to various risks of loss including, but not limited to, general liability, property casualty, workers' compensation, illnesses of employees and public officials' liability. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage in the fiscal year or prior two fiscal years.

NOTES TO FINANCIAL STATEMENTS (Continued)

7. RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

The District's defined benefit pension plan (the Plan), Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the Plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and supplementary information for the Plan as a whole but not by individual employer. That report may be obtained at www.imrf.org or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2018, IMRF membership consisted of:

Inactive employees or their beneficiaries	
currently receiving benefits	43
Inactive employees entitled to but not yet receiving benefits	18
Active employees	51
TOTAL	112

Benefits

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

NOTES TO FINANCIAL STATEMENTS (Continued)

7. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Benefits (Continued)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The member rate is established by state statute. The District is required to contribute at an actuarially determined rate. The employer rates for the fiscal year ended June 30, 2019 was 10.28% of payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date

Actuarial cost method

Entry-age normal

Assumptions
Inflation

Salary increases

Interest rate

7.25%

Asset valuation method

NOTES TO FINANCIAL STATEMENTS (Continued)

7. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions (Continued)

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2018 was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2019, the District would recognize pension expense of \$1,541,978; however, this is not reported on the District's financial statements due to their modified cash basis of accounting as discussed in Note 1d.

NOTES TO FINANCIAL STATEMENTS (Continued)

7. RETIREMENT FUND COMMITMENTS (Continued)

Illinois Municipal Retirement Fund (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources (Continued)

At June 30, 2019, the District reported deferred outflows of resources related to IMRF from the following sources:

	Deferred Deferred			Deferred
	Ο	utflows of	Inflows of	
	F	Resources	Resources	
Difference between expected and actual experience	\$	399,144	\$	-
Changes in assumption		228,304		198,879
Net difference between projected and actual earnings				
on pension plan investments		810,584		-
Contributions made subsequent to the measurement date		108,904		
TOTAL	\$	1,546,936	\$	198,879

Amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

\$108,904 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending June 30,	
2020	\$ 407,584
2021	291,425
2022	202,609
2023	337,535
TOTAL	\$ 1,239,153

NOTES TO FINANCIAL STATEMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the District calculated using the discount rate of 7.25% as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		Current					
	1	% Decrease	Di	scount Rate	1	% Increase	
		(6.25%)		(7.25%)		(8.25%)	
Net pension liability	\$	3,459,590	\$	2,033,854	\$	827,499	

The net pension liability, deferred outflows of resources and deferred inflows of resources are not reported on the District's financial statements on the modified cash basis of accounting as discussed in Note 1d.

8. OPERATING LEASES

The District is committed under various leases for copiers and postage equipment. The leases are considered for accounting purposes to be operating leases. Lease expenditures for the year ended June 30, 2019 amounted to \$1,512. Future minimum lease payments for this lease are as follows:

Year Ending June 30,	
2020 2021	\$ 1,512 1,512
TOTAL	\$ 3,024

NOTES TO FINANCIAL STATEMENTS (Continued)

9. JOINTLY GOVERNED ORGANIZATION

The District participates in Cooperative Computer Services (CCS). CCS is an intergovernmental entity formed by library members of the North Suburban Library System and exists to administer a jointly owned integrated library automation system. CCS's governing board is comprised of one member from each participating library. No participant has any obligation, entitlement or residual interest in CCS. In order to terminate membership in CCS, member libraries must provide one-year notice of termination. The District's expenditures to CCS for the year ended June 30, 2019 were \$71,120.

10. KENILWORTH CONTRACT

The Kenilworth Public Library District entered into a contract with the District and the Winnetka-Northfield Public Library District to pay for services provided to Kenilworth District residents. The amounts to be paid are based on an agreed-upon amount, adjusted for inflation, divided between the two libraries based on their proportion of circulation.

11. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the District provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan (the Plan). The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual. The Plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the Plan. The Plan does not issue a separate report. Additionally, the total OPEB liability, deferred outflows of resources and deferred inflows of resources are not reported on the District's financial statements on the modified cash basis of accounting as discussed in Note 1d.

The following are the summary results from the District's actuarial valuation performed as of June 30, 2018 (most recent data available).

Liabilities	\$ 54,357
Deferred outflows of resources	319
Deferred inflows of resources	510
Total OPEB expense	5,002

NOTES TO FINANCIAL STATEMENTS (Continued)

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. Benefits Provided

The District provides OPEB and life insurance benefits to its retirees. To be eligible for benefits, the employee must qualify for retirement under the District's retirement plan. The retirees pay 100% of the average employer group cost.

c. Membership

At June 30, 2018 (most recent data available), membership consisted of:

Retirees and beneficiaries currently receiving benefits Terminated employees entitled	-
to benefits but not yet receiving them Active employees	26
TOTAL	26
Participating employers	1

NOTES TO SUPPLEMENTARY INFORMATION

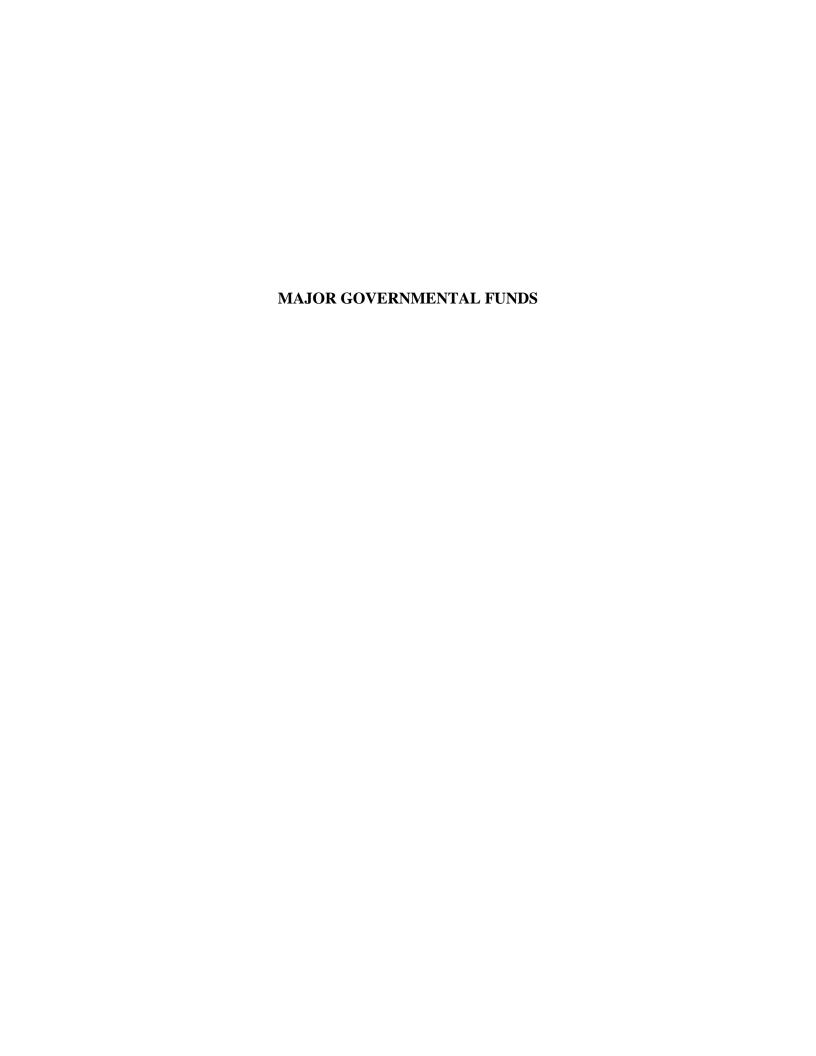

June 30, 2019

BUDGETS

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Board of Trustees prepares a Combined Annual Budget and Appropriation Ordinance for all funds, except for the Endowment Fund.
- 2. Budget hearings are conducted.
- 3. The budget is legally enacted through passage of an ordinance.
- 4. The budget may be amended by the Board of Trustees. No supplemental appropriations were adopted by the Board of Trustees in the current fiscal year.
- 5. Budgets are adopted on the modified cash basis.
- 6. The level of control (level at which expenditures/expenses may not exceed appropriations) is the fund level. All appropriations lapse at year end.
- 7. The following funds had an excess of actual expenditures over budget for the year ended June 30, 2019:

SCHEDULE OF EMPLOYER CONTRIBUTIONS ILLINOIS MUNICIPAL RETIREMENT FUND

Last Four Fiscal Years

FISCAL YEAR ENDED JUNE 30,	2015	2016	2017	2018	2019
Actuarially determined contribution	\$ 244,487	\$ 248,140	\$ 242,530	\$ 242,018	\$ 249,946
Contributions in relation to the actuarially determined contribution	 244,487	248,140	242,530	242,018	249,946
CONTRIBUTION DEFICIENCY (EXCESS)	\$ -	\$ -	\$ -	\$ -	\$ -
Covered payroll	\$ 1,980,561	\$ 2,064,161	\$ 2,044,912	\$ 2,146,702	\$ 2,431,018
Contributions as a percentage of covered payroll	12.34%	12.02%	11.86%	11.27%	10.28%

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 25 years; the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.50% annually, projected salary increases assumption of 3.75% to 14.50% compounded annually and postretirement benefit increases of 3.50% compounded annually.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as available.

November 15, 2019

The Honorable President Members of the Board of Trustees Wilmette Public Library District 1242 Wilmette Avenue Wilmette, Illinois 60091

Ladies and Gentlemen:

As part of our audit process we are required to have certain communications with those charged with governance at the beginning of our audit process and at the conclusion of the audit. Those communications include information related to the planned scope and timing of our audit, as well as other information required by audit standards. Our communication at the beginning of our audit process along with our questionnaire regarding consideration of fraud in a financial statement audit was sent to you in October 2019.

In addition, auditing standards require the communication of internal control related matters to those charged with governance. Our management letter, as well as a listing of future pronouncements that may affect Wilmette Public Library District, are enclosed within this document.

This information is intended solely for the use of the President, the Board of Trustees and management of the Wilmette Public Library District and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Sikich LLP

SIKICH.COM

November 15, 2019

Members of the Board of Trustees Wilmette Public Library District Wilmette, Illinois

Ladies and Gentlemen:

We have audited the financial statements of the of the governmental activities, each major fund, and the aggregate remaining fund information of Wilmette Public Library District (the District) for the year ended June 30, 2019 and have issued our report thereon dated November 15, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 21, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year ending June 30, 2019. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We noted no particularly sensitive estimates made by management during our audit of the financial statements except for the actuarial valuations and related estimates for the pension plan.

The disclosures in the financial statements are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial and communicate them to the appropriate level of management. The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole, except for AJE#01 and AJE#02.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or audit matter, whether or not resolved to our satisfaction that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 15, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the combining and individual fund financial statements and schedules, which accompany the basic financial statements but are not required supplementary information (RSI). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period and the information is appropriate and complete in relation to our audit of the basic financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves.

We were not engaged to report on the supplementary information, which accompany the basic financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of the Board of Trustees and management of the Wilmette Public Library District and is not intended nor should it be, and should not be, used by anyone other than these specified parties.

We appreciate the courtesies extended to us by the District and those associated with it during our audit for this year. If you have any questions regarding the purpose of this letter or the requirement mentioned, please give me a call.

Sincerely,

Sikich LLP

MANAGEMENT LETTER

June 30, 2019

CERTIFIED PUBLIC ACCOUNTANTS & ADVISORS

1415 West Diehl Road, Suite 400 Naperville, IL 60563 630.566.8400

SIKICH.COM

Members of the Board of Trustees Wilmette Public Library District Wilmette, Illinois

In planning and performing our audit of the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Wilmette Public Library District (the District) as of and for the year ended June 30, 2019, in accordance with the modified cash basis of accounting, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses and therefore there can be no assurance that all such deficiencies have been identified. We did not identify any deficiencies in internal control that we consider to be material weakness. As discussed on the following pages, we identified certain matters that are opportunities for strengthening internal controls and operating efficiency, of which management should be aware. This letter does not affect our report dated November 15, 2019, on the basic financial statements of the District.

This report is intended solely for the information and use of the President, the Board of Trustees and Management and is not intended to be, and should not be, used by anyone other than these specified parties.

Sikich LLP

Naperville, Illinois November 15, 2019

SIGNIFICANT DEFICIENCY

1. Segregation of Duties

A system of internal control provides for a proper segregation of the accounting functions. This system would segregate recording of transactions, custody of assets and authorization of transactions. Proper segregation is not always possible in smaller entities, but limited segregation to the extent possible can and should be implemented to reduce the risk of errors or fraud. At the District, there is a lack of segregation of duties due to the number of personnel performing the accounting functions. The Business Manager and Accounting Assistant conduct the vast majority of data entry, processing and reconciliations of the various transaction cycles. The District does have significant compensating controls, such as Board approval of bills lists and Director review and approval of payroll transactions, accounts payable invoices and checks and monthly bank reconciliations. We recommend that management continuously review the current assignments of accounting functions and, when possible, segregate duties and/or implement compensating controls to reduce the risk of errors or fraud.

OTHER COMMENTS

1. Reporting on the Modified Cash Basis

The District currently records and reports their financial activity on the Modified Cash Basis of Accounting, which is another comprehensive basis of accounting that is not a generally accepted accounting principle (GAAP). GAAP requires that governmental agencies report their governmental funds on the modified accrual basis of accounting, which require the recognition of revenues when they are both measurable and available and expenditures when they are due and payable, rather than when the cash comes in or out of the District. The modified cash basis of accounting is frequently used by smaller governmental entities in the State of Illinois. The District has determined that the needs and requirements of the external report users (i.e. the Board of Trustee, citizens of the District and the various State agencies) are being met with the modified cash basis of accounting. The District's current reporting is acceptable and allows the financial records to be reported fairly in accordance with the modified cash basis of accounting. If the District were to seek to issue debt in order to finance a project, we would encourage the District to seek the advice of a bond consultant to determine if a change in accounting basis is warranted.

2. Market Value of Investments

We noted during our procedures on investments that the Library did not adjust its negotiable certificate of deposit balances to market value at June 30, 2019. This is a requirement of GASB Statement No. 31 for any investments that have a maturity date greater than one year from the date of purchase. For the Library, multiple negotiable certificates of deposit had maturity dates greater than one year, however the total investment value difference was immaterial to the financial statements and thus no adjustment was posted. We recommend that the Library review its year end investment statement and adjust the necessary investment balances to market value at year end.

OTHER INFORMATION

1. Future Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued a number of pronouncements that may impact the District in the future.

GASB Statement No. 84, *Fiduciary Activities*, establishes criteria for identifying fiduciary activities. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this standard are effective for the fiscal year ending June 30, 2020. Earlier application is encouraged.

GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for the fiscal year June 30, 2021.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. This statement is effective for the fiscal year ending June 30, 2021 and thereafter.

OTHER INFORMATION (Continued)

1. Future Accounting Pronouncements (Continued)

GASB Statement No. 90, *Majority Equity Interests*, an amendment of GASB Statements No. 14 and No. 61, was issued in August 2018. The primary objectives of this Statement are to improve the consistency in the measurement and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement establishes that ownership of a majority equity interest in a legal separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. This statement is effective for the fiscal year ending June 30, 2020.

GASB Statement No. 91, Conduit Debt Obligations, which intends to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for the fiscal year ending June 30, 2021.

FIRM PROFILE

SIKICH TOTAL REVENUE

ORGANIZATION

Sikich LLP, a leading professional services firm specializing in accounting, technology, investment banking* and advisory services**, has 750+ professionals throughout the country. Founded in 1982, Sikich now ranks as one of the country's Top 30 Certified Public Accounting firms and is among the top one percent of all enterprise resource planning solution partners in the world. From corporations and not-for-profits to state and local governments, Sikich clients can use a broad spectrum of services and products that help them reach long-term, strategic goals.
